Welding Inspection Services

Coating Inspection Services

Lifting Equipment

Project QA/ QC

Welder Qualification

Plant Inspection

NDT

NDT SERVICES :

We have NDT Division with ASNT level - III, level II certified NDT technicians to execute jobs :

- ① Radiographic Testing
- ② Ultrasonic Testing (UT Thickness Gauge and corrosion scanning)
- ③ Magnetic Particle Testing
- ④ Liquid Penetrant testing
- ⑤ Positive Material Identification
- ⑥ Visual Inspection
- ⑦ PWHT
- ⑧ Hardness Testing
- ⑨ Welding Visual Inspection

Expertise Beyond Expectations...

Quality That Makes the Difference

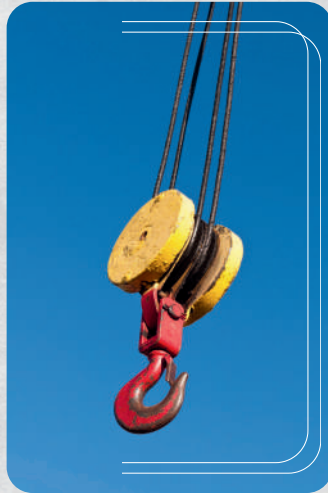

PROJECT QA/QC

- Our Services in the area of projects
- Mechanical engineers
- Piping Engineers Inspectors
- Welding Inspectors
- Painting Inspectors
- Materials Inspectors
- Piping and Mechanical QC support

LIFTING EQUIPMENT INSPECTION

Inspectors Union Company provides structural integrity inspections/assessments on lifting and hoisting equipment as part of the inspection plan/annual survey and to meet legal/safety requirements. Inspectors' Union always provides qualified and certified inspectors

OUR SERVICES

- Third-party services for inspection and testing
- Inspection and certification of all types of lifting equipment and accessories
- Proof load test
- NDT of lifting equipment and accessories
- Color Coding

LIFTING EQUIPMENT INSPECTION

Periodic inspection of the lifting equipment / loose gears to ensure that the equipment is safe and fit for service. after completion of inspection, subsequent results reporting, and specifications.

Lifting equipment, also known as lifting gears, is a general term for any equipment that can be used to lift loads. Lifting equipment is any work equipment for lifting and lowering loads, and includes any accessories used in doing so. Try to fix it or anchor the equipment. Creane hoisting and lighting equipment inspection ensures the safety and reliability of your equipment and compliance with statutory requirements.

PLANT INSPECTION

we have a group of api certified plant inspectors (API 510, API 570 AND API 653) and inspection engineers to perform in-service inspections in petrochemical plant and refineries. our inspectors have been working in various petrochemical plants like SABIC (SADAF, AR RAZI, PETROKEMYA), TASNEE, SPICHEM MADDEN, FARABI, SABTANK, S-CHEM, SATROP and other petrochemical plants in saudi arabia.

ON STREAM INSPECTION

our expertise team is ready to handle on stream inspection of piping and equipment which includes developing new isometrics and getting base line data readings for new piping and classifying piping according to api classes.

OUR SERVICES INCLUDES

- plant piping inspection
- plant equipment inspection
- corrosion monitoring services
- risk based inspection
- fitness for services evaluation as per api-579
- cui evaluation
- identify corrosion loops and developing inspection test plan for plant piping.
- turnaround inspections (shutdown)
- vendor inspections
- thermography
- metalgraphy services (replica)

TRAINING

- ASNT NDT Level II Training in RT, UT, MT & PT
- Special NDT Training Program for Saudi Engineers and Technicians
- Our Experienced training Faculty organizes API training at your facility as per request.
